The healthy returns can be attributed to our selection of projects and entry point with margin of safety. We are continuously focussed on identifying opportunities with investment horizon of 3-5 years coinciding with completion of the project."

Sunil Rohokale, Managing Director and CEO, ASK Asset & Wealth Management Group said, "Real estate cycle has turned around due to sustained increase in end user absorption and supply constraints. We will continue to focus on residential end user driven mid segment. Residential is a favoured asset segment world over in addition to logistics and data centres.
